

## ActiveFlow

- Molded, fast-dry spacer fabric
- Breathable foam for support and structure
- Lightweight beads dry quickly and do not absorb water
- Flattering, natural profile, whether active or lying down
- Water resistant satin draw string bag can be used to carry damp items or wet swimsuit
- Satin garment loop can be used to pin it into a garment

## ActiveFlow

Your active lifestyle can continue  
after breast surgery.

**Find out what ActiveFlow  
can do for you!**

## 630 • ActiveFlow

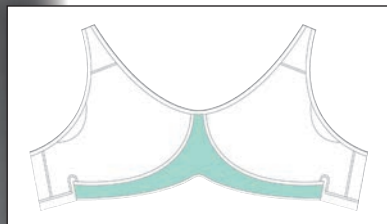

### Get back to your **active** lifestyle after breast surgery

The newest concept in active-lifestyle breast form design. The perfect combination of beads and molded spacer fabric provide a flattering, natural profile, whether active or lying down.

It's your perfect companion for all active and leisurely activities such as yoga, gardening, exercise classes, swimming and jogging.

**We know you'll fall in love with the ActiveFlow breast form!  
Try wearing ActiveFlow with our cotton-rich & COOLMAX® lined  
seamless softcup bra!**

## 4014 Ella • Cotton & COOLMAX® Seamless Softcup

This beautiful supportive style has a specially designed front bottom band lined with COOLMAX®, as well as COOLMAX® pockets.

### How COOLMAX® works:

- COOLMAX® fabric pulls moisture away from skin
- It absorbs and spreads moisture out across the fabric to enhance evaporative drying rate, while the air moves in to keep your body cool and dry.

**Moisture management + Breathability = Total Comfort!**
